

RELEASE OF LIABILITY Alti-2, Incorporated

I, the undersigned, have requested that Alti-2, Incorporated modify a standard dial face to a non-standard dial face design which I have supplied.

I understand that the colors and design may significantly reduce the contrast between the dial face and pointer. A reduction in contrast and other aspects of modifying the standard dial face may result in a longer response time for me to read my altimeter and may therefore detrimentally impact my altitude awareness.

I understand that any device, including my altimeter, may malfunction. I understand that looking at the ground is my primary measure of altitude and that an altimeter is only an aid to altitude awareness.

I agree that Alti-2, Incorporated may use the image of my Altimaster altimeter faceplate in promotional materials, on their website and any other media for promotional purposes. My design will not be used for any other purpose without my written consent.

I hereby release, discharge and hold harmless Alti-2, Incorporated, its employees, and its representatives from any and all liability, whether for personal injury, property damage, or otherwise, arising out of, or in connection with, use of this product.

By signing below, I acknowledge that I am at least 18 years of age and that I have read, understand, and agree to the terms of this Release of Liability.
